Working on the Dark Side of the Moon:

*Life Inside the
National Security Agency*

A deeply personal account of the years spent within the most secretive organization in the world, Working on the Dark Side of the Moon explores the range of emotions an outsider experiences while crossing over to the "inside." It also shows the positive side of an Agency whose secrecy hides dedicated men and women devoted to protecting the country while honoring the Constitution.

Thomas Reed Willemain is Professor Emeritus of Industrial and Systems Engineering at Rensselaer Polytechnic Institute.
